

## **Women's Service Team Selection Proposal**

We propose that the Women's Service Team be composed of the wives of the Evangelists' Committee and the wives of the Elders' Committee. The committee will be co-chaired by a wife from the Evangelists committee and a wife from the Elders committee who will be selected by the women's committee and be presented to the Delegates for final approval.

We would develop subcommittees headed by a committee member to meet a variety of needs for the women around the world. The subcommittees could also include women outside our committee, chosen by the subcommittee and approved by the whole committee. The co-chairwomen will select a steering committee of 5 (from the committee) for conference calls and final decisions.
